I presumed, incorrectly, that Mr. Shenkman had specific experience as an attorney practicing in this area. My impression is that his writings on asset protection appear to be just a summarization of the writings of others, with little or no original thought. About halfway through this book, puzzled by its consistent shallowness, I finally did some research on Mr. Shenkman and found out that he seemingly just quickly cranks out a new book every time some topic heats up, such as his "How to Buy a House with No (or Little) Money Down". 4 of 5 people found the following review helpful.
