This really helped us. My mom was in a nursing home and there were a lot of things starting to happen that we didn't know how to deal with. The book really overviews the best way to handle abuse and neglect situations in care homes. We honestly can not even begin to explain how much it's helped us get mom into the best position for health at her new facility.

Brads passion for nursing home abuse cases stems from a personal tragedy that happened to a member of his family. Brads goal in his work and for this book is to prevent the same type of tragedy from happening to others. This step by step guide provides practical guidance for families with relatives in nursing homes.
