**Guido Calabresi : A Common Law for the Age of Statutes (Oliver Wendell Holmes Lectures)** before purchasing it in order to gage whether or not it would be worth my time, and all praised A Common Law for the Age of Statutes (Oliver Wendell Holmes Lectures):

2 of 2 people found the following review helpful. Buy it and read it. You won't regret it.By mamilWhat can I say -- words from the last generation's greatest scholar-jurist in the vein of Cardozo and Holmes, updated for our modern legal system. Brilliantly expressed and readable in a way that law review style legal scholarship is not. When I can open a law book on an airplane and become absorbed, you know it is worth paying for. I have the Kindle version and will follow up with one for the bookshelves.

The dominance of legislatures and statutory law has put an impossible burden on the courts. Guido Calabresi thinks it is time for this country seriously to consider returning to a traditional American judicial-legislative balance in which courts would enlarge the common law and would also decide when a rule of law has seen its day and should be revised.

This is a genuinely original and thoughtful book, one of the few in the jurisprudential genre that is both dearly written and devoid of clich. It addresses current social and legal issues from an engagingly fresh, nonpolemical, and erudite perspective. (American Bar Association Journal)Calabresi has brought his ample juristic talents to bear on a

foundational problem of the legal and democratic process...in its quality, timeliness and provocativeness [this book] is likely to stand alongside the seminal works of Ronald Dworkin and Grant Gilmore. (Columbia Law )
