think some stuff you just know as an older woman from mid 20s and up through life experiences but it's a good reinforcement. And some stuff I did not know. I would like to start my similar journey but I'm nervous, I hope I have enough boss in me to demand what I want. Because I am very nice and men play like I'm dumb but I see it and leave them, but some women they don't even try cause they already know what's up and that's were I want to be. Regardless if their my man, just a goal or whatever, they will know don't try it, and give me what I want. For me it can just be one or two who constantly do for me, but reality is once they see they won't get the booty, they will stop answering! I learnt that in high school.5 of 5 people found the following review helpful. I went from a mess to success because of this book.By Africangordital purchased this book after seeing Baje on Dr. Phil many years ago. At the time, I was a single mom with two young children. I was destitute. I had found myself at 23 years old in a horribly abusive living situation. I felt hopeless and I had run out of options. Shortly after receiving her book I found myself homeless with no where to go. I used the principles in this book to pull myself out of despare and depression. Soon after applying the lessons I learned in this book I was meeting men wealthy beyond my imagination. I'm talking men who owned cryogenic companies that cloned champion race horse money! Men who didn't think twice about putting thousands of dollars into my account without thinking twice, and without me having to ask for it. I got myself out of debt, put a down payment on a house, and opened a highly successful business. At the time I didn't even have a car. Now five years later I am still successful and I honestly don't need anyone's help financially for anything. I never thought in a million years that I could go into any store and buy whatever I wanted. I didn't think it was possible for me to put money into investments. I now have a great lifestyle and things have really turned around for me. I really owe it all to Baje. Because she took the time to write about her experiences and her mistakes. Oh and I did it all without EVER GIVING IT UP. Not once did I ever compromise myself in anyway. Not even a kiss. Please buy this book and apply it!

About the AuthorReceiving a great deal of publicity for her new book, A Golddigger's Guide, successful CEO and author Baje Fletcher schools aspiring women on how to play the game to get what they want. On the rough road to Hollywood, countless beauties searching for fame and fortune become overwhelmed by the seedy advances of self-proclaimed "powerful men" who promise to make them a household name. Such men include sleazy executives, producers, entertainers, sports stars and even corporate professionals who prey on unsuspecting, beautiful women navelly ready to "do anything for fame." When these men get to star model and author Baje Fletcher however, the game gets flipped on them and she's taking no prisoners in the process. Having been there and done that, or at the very least, observed the effects such "poor choices" have had on other women, Baje is turning the tables and making a profit She wants to teach you how she does it as well. The multi-faceted Baje is in the process of shopping her reality show based off A Golddigger's Guide and is preparing to write her second book. She credits her tireless work ethic to being "Brooklyn-born and Jamaican-raised," as her upbringing taught her the value of perseverance, hard work and being resilient through challenges. "If everything I have today is taken away from me, I know how to pick myself up and start all over again because I came from nothing." Baje concludes, "Everything I have now is a blessing. I'm a hard worker and thank God I'm able to do what I love for a living." Story By: L. Raquel Boone of Jadore Magazine
