James A. Monteleone : A Parent's Teacher's Handbook on Identifying and Preventing Child Abuse before purchasing it in order to gauge whether or not it would be worth my time, and all praised A Parent's Teacher's Handbook on Identifying and Preventing Child Abuse:

6 of 6 people found the following review helpful. "Must" Reading for Anyone who Works with kids....By A Customer
This book is "must" reading for anyone who has children or who is working with children. Written in a clear, concise style, the book is an easy reference to determining IF you are seeing child abuse symptoms, and HOW to deal with the situation if child abuse is present. Written by an M.D., the author is well qualified to show examples of "abuse" wounds versus regular scrapes and bruises a child would suffer. There are excellent drawings to illustrate those areas of the body which would show physical or sexual abuse. Not only is this an excellent reference for detecting abuse, this book gives the reader good advice on how to deal with the situation, who to contact, how to verify what you are suspecting, etc. I found this book to be the best reference document yet on understanding this most sensitive subject.

In plain-spoken language with an easy-to-follow format, A Parent's Teacher's Handbook on Identifying Preventing Child Abuse explains what is and is not abuse, and describes in detail the physical and behavioral indicators of physical, sexual and psychological abuse. It offers practical strategies for introducing the subject of personal body safety with children and outlines clear-cut steps to take when a child discloses that he or a friend has been abused.

"The discussion is straightforward, factual and easy to understand." -- Frand A. Conard, Administrative Judge of the Family Court, Eleventh Judicial Circuit, Division Four, St. Charles, MO
"This book is essential reading for parents and teachers seeking to understand child abuse." -- Howard B. Levy, M.D., Chair, Department of Pediatrics; Director, Pediatric Ecology Program, Columbia Grant Hospital, Chicago, IL; President, International Society for the Prevention of Child Abuse and Neglect
"This will be a book I will recommend and hope to implement in our program's educational programs." -- Julie Maire-Turner, M.Ed., Executive Director, Children's Advocacy Center of St. Louis
About the Author
James A. Monteleone, M.D. is board certified in pediatrics, with a subboard in pediatric endocrinology. Dr. Monteleone received his medical degree from the St. Louis University School of Medicine in 1962,

where he now serves as an attending physician and Professor of Pediatrics. Dr. Monteleone is also a noted lecturer and author on the topic of child maltreatment. In addition to his professional responsibilities, Dr. Monteleone serves as the chair or advisor to several area groups devoted to the protection of children, including the Child Abuse Management Committee, Children's Advocacy Center and the St. Louis Child Death Board.
