**Robert Abbey, Mark Richards : A Practical Approach to Conveyancing** before purchasing it in order to gage whether or not it would be worth my time, and all praised A Practical Approach to Conveyancing:

Written by two leading authorities in the area with over 50 years' combined experience of legal practice, A Practical Approach to Conveyancing continues to provide a detailed and accessible exposition of the key principles and procedures governing conveyancing transactions. Combining coverage of both residential and commercial conveyancing, the book guides the reader through the various stages of a typical conveyancing transaction and provides highly practical guidance on each stage, from first receiving instructions and undertaking pre-contract searches and enquiries right through to completion, enabling the reader to approach all aspects of a conveyancing transaction with confidence in practice. The pragmatic nature of the book is enhanced by the inclusion of relevant

sample documentation, clauses and forms throughout, ensuring that the reader is familiar with the documentation they will encounter in practice. Key point summaries and practical checklists provide additional learning support and can be used to quickly identify the essential points relating to individual subject areas. Now in its fourteenth edition, the book has firmly established itself as a core text on the Legal Practice Course for those seeking to provide their students with a highly practical and applied overview of property law and practice. This classic text is also essential reading for anyone involved in the conveyancing process, including trainee and qualified solicitors, legal executives and licensed conveyancers.
