commercial real estate transactions. As an investor and non-lawyer, I found it accessible and highly useful for gaining a better more intuitive feel for several 8-figure real estate transactions I was in the middle of handling. I highly recommend this book for the professional real estate investor who wants to understand how lawyers think about real estate transactions and to be aware of potential pitfalls. I will refer to this text often in my work.6 of 6 people found the following review helpful. great practical insight for practiceBy Ra-J_Al_GhuIVery thorough read, great practical insight for practice.5 of 5 people found the following review helpful.
