**From Brand: Bloomsbury USA : Access to Knowledge in Brazil: New Research in Intellectual Property, Innovation and Development** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Access to Knowledge in Brazil: New Research in Intellectual Property, Innovation and Development:

0 of 0 people found the following review helpful. I was so disappointed. The freeBy Michael JacobsI chose to pay for the Kindle version of this book, so I could listen to it. Unfortunately, the text-to-speech function is not available. I was so disappointed.The free .pdf version is a perfect substitute. That is what I would recommend.After I actually read the book, I will return to this review and update it.0 of 0 people found the following review helpful. This volume features four chapters addressing the current issues facing intellectual property, innovation and development policy in Brazil. Each chapter is authored by legal scholars affiliated to the Fundacao Getulio Vargas law schools in Sao Paolo and Rio de Janeiro. Each chapter examines a policy area that significantly impacts access to knowledge in Brazil. These include: exceptions and limitations to copyright, free software and open business models, patent reform and access to medicines, and open innovation in the biotechnology sector.

Brazil is one of the world's most productive crucibles for new ideas and practices in innovation and collaboration. This meticulously researched book provides a sweeping tour of the issues arising from that leadership. Jonathan Zittrain Professor, Harvard Law SchoolAs policy makers around the world grapple with how to configure their intellectual property policies to promote innovation and economic growth, as well as public access to the fruits of intellectual labor, they would do themselves a huge favor by reading Lea Shaver's excellent book. Pam Samuelson, Professor, University of California, BerkeleyThis is essential reading for anyone who cares about one of the most important human rights issues of the century: access to knowledge. Madhavi Sunder, Professor of Law, University of California DavisAbout the AuthorLea Shaver is an Associate Research Scholar and Lecturer in Law at Yale Law School.
