This study aid provides candidates with a complete guide to the bar exam from pre-planning considerations through bar review and sitting for the exam. Every aspect of the process is explained in detail and by example. The bar exam is deconstructed, section by section, where candidates are led through the steps they need to follow to succeed. Approaches for learning the black letter law, setting study schedules, and answering essay and multiple-choice questions are combined to maximize the likelihood of success. Each of these tasks is then configured into checklist format to help candidates navigate each step.
