**James V. Calvi, Susan Coleman : American Law and Legal Systems (5th Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised American Law and Legal Systems (5th Edition):

1 of 1 people found the following review helpful. great intro to law and policyBy thinkaboutitI wish I had this book in high school, maybe I would have grasped our U.S. systems then. This is a great read. It is useful, clear, and has the perfect range of topics. I didn't give 5 stars because one or two chapters were a bit boring. We used this for a graduate level intro class, but I think a wide range of readers could find it useful.5 of 5 people found the following review

helpful. Great book  
By dipkins This book has detailed information that is not too overwhelming. The author does a good job of breaking down the material so it can be understood. It is a great book for someone who wants to review the American legal system and it also serves as a great book for someone studying the American legal system for the first time.  
1 of 1 people found the following review helpful. A Book That is Clear and to The Point  
By Khal4Mordak Great book. Had to buy it for my Judicial Systems class. I learned many things after reading it.

This volume presents a clear examination of the philosophy of law within a political, social, and economic framework. Coverage introduces readers to operative legal concepts, everyday law practices, substantive procedures, and the intricacies of the American legal system. Eliminating confusing legalese, the authors skillfully explain the basics--from how a lawsuit is filed to the final appeal--and review English legal roots. The survey addresses history and the law, court organization, procedure and evidence, limitations, constitutional law, criminal law, administrative law, environmental law, torts, contracts, and property law. For those interested in a greater understanding of the American legal system.

From the Publisher This text presents a clear examination of the philosophy of law within a political, social and economic framework. Coverage introduces readers to operative legal concepts, everyday law practices, substantive procedures, and the intricacies of the American legal system. Eliminating confusing legalese, the authors skillfully explain the basics--from how a lawsuit is filed to the final appeal--and review English legal roots.
