Fraser Cameron : An Introduction to European Foreign Policy before purchasing it in order to gage whether or not it would be worth my time, and all praised An Introduction to European Foreign Policy:

0 of 1 people found the following review helpful. Five StarsBy Paloma BreitIt's good!2 of 2 people found the following review helpful. Terrific overviewBy mongoose3This book provides a terrific overview of EU foreign policy. I highly recommend it to those who have a basic knowledge of how the EU works and want more details about the EU foreign policy process in all three pillars (as the institutions now stand.) The book is comprehensive and provides useful suggestions for additional reading and web links to EU sites that will give more detail on specific

program. The book is also written in a very accessible way. It isn't highly technical and doesn't try to be overly academic. It's a straightforward, nuts and bolts overview of the issues and regions with which the EU is dealing.

This text is the best introduction to the history, institutions, actors, processes and challenges of European Foreign Policy. This 2nd edition has been fully revised and updated to reflect the substantial changes to European Foreign Policy as a result of the Lisbon Treaty and other significant changes in European and global politics. New material for this edition includes: detailed analysis of the changes brought about by the Lisbon treaty including the new High Representative of the Union for Foreign Affairs and Security Policy and the new EU External Action Service changing transatlantic relations since the election of President Obama expanded discussion of the European and Security Defence missions in Afghanistan, Kosovo and elsewhere an assessment of the impact of the relations between the EU and its three strategic partners China, India and Japan as well as ASEAN and the new FTA with Korea evaluation of the global financial crisis on the EU, examining EUs external relations within the context of a rapidly changing global power structure. With clearly illustrated up-to-date case studies, covering major issues such as Egypt, Libya, Iraq and Iran, each chapter includes key questions and suggestions for further reading. As such, An Introduction to European Foreign Policy continues to be essential reading for all students of European and international politics as well as those who wish to become involved in the external relations of the EU.

'An extremely useful and comprehensive overview of the current state of European foreign policy written in an accessible style by an experienced practitioner with an excellent understanding of what is required in an introductory academic text.' - David Allen, Loughborough University, UK 'Much writing on European Foreign Policy falls into one of two camps. Either the account is bedeviled by an over preoccupation with detail or empirical reality is bypassed in favour of self referential theoretical debates. By contrast, Fraser Cameron drawing on his extensive experience as a practitioner has given us a masterly and wholly accessible account of the evolution of European Foreign Policy which will be required reading on EU courses.' - William E Paterson O.B.E., University of Birmingham, UK On the eve of another crucial step on the long march towards a more robust European Union foreign policy capability under whatever form of new Treaty this book provides an excellent insider account - it describes in a pedagogic fashion the strength, the shortcomings and the organizational complexities of the EU's external action today. The book will be invaluable for all students engaged in European studies.' - Gnter Burghardt - Ambassador (ret.), Visiting professor at the College of Europe and the University of Ghent, Belgium About the Author Fraser Cameron is one of the foremost experts on the external relations of the EU and has published widely on all aspects of European foreign policy. A former British diplomat and EU official, he is an adjunct professor at the Hertie School of Governance, Berlin, a senior advisor to the European Policy Centre and Director of the EU-Russia Centre and the EUAsia Centre.
