James Gordley, Arthur Taylor von Mehren : An Introduction to the Comparative Study of Private Law: Readings, Cases, Materials before purchasing it in order to gage whether or not it would be worth my time, and all praised An Introduction to the Comparative Study of Private Law: Readings, Cases, Materials:

1 of 1 people found the following review helpful. The book is almost new, and arrived at the concerted time.By RICARDO BUSANA GALVO BUENOThe book is very interesting and brings everything the site mentioned. It

makes a clear and summarized exposition of important text, statutes and precedents that helps a lot to start to understand Comparative Study of Law. 1 of 2 people found the following review helpful. Great product and service
By Pitman
The book was in new condition and purchased at a bargain price. The seller is to be commended for such a great bargain.

This collection of readings sets out the two fundamental distinctions between common and civil law, namely that the former originated in the English courts, the latter in the Roman legal tradition, and that the common law is based on judicial decisions whereas codes form the basis of modern civil law. The core of the book consists of cases, statutes and code provisions shaping the doctrines central to the law of property, tort, contract and unjust enrichment in the United States, England, France and Germany. These materials provide a road map of the law of each, allowing the reader to consider how doctrines differ, how these differences emerged and whether the underlying problems and solutions are common to all. They also allow for comparison to be made between the approaches of common and civil law and to consider the extent to which they depend on the origin and nature of the law.

of the hardback: '... this is a stimulating ... resource.' European Tort Law
The book is doubtless a very valuable tool for teaching comparative law ... it is obvious that great care has been taken in the selection of the cases and materials that are included in the book ... It gives the reader a fascinating insight into the origins of the common law and civil law, and has the capacity to inspire the reader to develop a life-long appreciation for, and interest in, comparative law ... this is the type of book that, in a ideal world, every single law student should be exposed to.' Commonwealth Law Bulletin
About the Author
James Gordley is Shannon Cecil Turner Professor of Jurisprudence, University of California at Berkeley. He has published extensively on comparative law and jurisprudence and has held the post of visiting professor at many European universities. Arthur Taylor von Mehren is Story Professor of Law, Emeritus, at Harvard University. He has written on various aspects of international law, from comparative law, to conflict of laws and international commercial arbitration.
