Hutcheson This book serves two different audiences. First, it serves an undergraduate student audience. For undergraduate students, the book provides a clear introduction to trust law. It focuses on the different reasons that the courts might have for adopting particular rules. For more advanced students, the book provides a well-researched commentary on many of the more disputed areas of trust law. It does this through its footnotes, which tend to contain substantial discussion of these topics.

A comprehensive, stimulating introduction to trusts law, which provides readers with a clear conceptual framework to aid understanding of this challenging area of the law. Aimed at readers studying trusts at an undergraduate level, it provides a succinct and enlightening account of this area of the law. Concise and clear, this book also identifies and discusses many analytical perspectives, encouraging a deeper understanding of the issues at hand. It offers an outstanding treatment of specific areas, in particular remedial constructive trusts and trusts of family homes. Ideal for providing a broad background to the issues before embarking on an in-depth study of trusts, it can also be used to help the reader to develop their understanding. For those looking to challenge themselves, detailed footnotes highlight further issues and point the direction for future reading. Fully revised to take into account the Charities Act 2006, judicial developments through case law, and recent academic work in this area, this new edition in the renowned Clarendon Law Series offers a well-written, careful, and insightful introduction to the law of trusts.

(s) from previous edition "Gardner is to be congratulated for having produced this stimulating introduction which... will be a very valuable addition to any serious library in the topic, as well as providing an introduction which trusts teachers would do well to recommend enthusiastically to their students. - C.E.F. Rickett, *The Cambridge Law Journal*, Vol 50 No.2 (Jul 1991), pp369-371 "Gardner's book... is written in a clear, attractive style. Gardner... deal[s] with difficult topics with clarity and depth. He gives a clear treatment of the cases, along with an effective critique, and he discusses the issues in the light of the political models. In short, he does succeed in carrying out the Series' aim of providing 'a general perspective of legal ideas and problems which will make their detailed study more rewarding'... [It is] well written, careful and insightful." - T.G. Youdan, *Writing on the Law of Trusts*, in *The Oxford Journal of Legal Studies*, Vol 12 (Summer 1992), pp275-283 About the Author Simon Gardner has been a member of the Oxford University Law Faculty and a Fellow of Lincoln College since 1978, working and teaching primarily in the areas of Land Law, Trusts, and Criminal Law. He is the author of some fifty articles, principally in these areas, and of books in Land Law and Trusts. In recent years he has been made an Academic Member of the Chancery Bar Association, and was given a Teaching Excellence Award by Oxford University.
