Pamela Frasch, Katherine Hessler, Sarah Kutil, Sonia Waisman : Animal Law in a Nutshell (In a Nutshell (West Publishing)) (Nutshells) before purchasing it in order to gage whether or not it would be worth my time, and all praised Animal Law in a Nutshell (In a Nutshell (West Publishing)) (Nutshells):

1 of 2 people found the following review helpful. Good case law referenceBy Bernard BrombergHas many good reference examples for both animal rights and limits of rights. I did find information I needed regarding abuse of feral

cats. Not the answer I hoped for but that's the law for you. More research needed.

Topics include animal anti-cruelty laws, industrial and agricultural uses of animals, torts and other claims for harm done to animals, as well as federal, state and local regulation of animal ownership and use, animal rights activism, hunting, fishing and other recreational uses of animals, animals in entertainment, issues arising when animals are the subject of a contract or the intended beneficiary of a will or trust, remedies for harm done to animals, and anticipated future legal developments in the field.
