**Miguel De Avillez Pereira : Antitrust and New Media (AIJA Series)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Antitrust and New Media (AIJA Series):

This is the first publication of AIJA's Antitrust Sub-Commission of the International Business Law Standing Commission. The book is the result of the reports from twenty different jurisdictions for the working session organised

by the Antitrust Sub-Commission during the Annual Congress of AIJA in Sydney in September 1998. The reports were based upon a questionnaire prepared by the General Reporter and Editor and generally reflect legislation up until January 1999. The purpose of this book is to discuss the critical issues in applying antitrust laws to the media sector, having in mind three main issues: deregulation and convergence in the media industry worldwide the effect of antitrust laws on the new media environment the balance between sector-specific regulation and antitrust rules
