my time, and all praised Applications Under Schedule 1 to the Children Act 1989:

In the UK, Schedule 1 applications ensure that a child's financial needs are met, providing three forms of financial relief for a child, namely: a maintenance order, settlement, or transfer of property order against either or both parents; a periodical payments order or lump sum order in favor of a child who has reached 18 and is undergoing education/training; a variation of an existing maintenance agreement containing financial arrangements. This book is a practical guide to the practice, law, and procedure in respect of Schedule 1 applications in the UK and includes case summaries plus sample forms and orders. Contents include: procedure for commencing an application/who can apply * interface with other applications/CSA * jurisdictional issues (eg the father living abroad) * funding and costs * types of orders available * criteria to be applied by the court * the duration of orders * tax issues * the use of trusts * low assets/benefit cases * enforcement * UK case summaries * table of examples of cases and outcomes (drawn from the authors' experience) * sample forms and orders.
