This guide is an invaluable publication for everyone from pre-law majors to current lawyers looking to move into the practice of international law. Available for over 15 years, the guide has always included personal insights into the practice of international law from global leaders in the field. The (2013-2014) edition of the guide adds a detailed, step-by-step approach to evaluating professional development choices. The guide includes advice on everything from study abroad options to scholarship opportunities to networking and professional presentation, as well as four appendices featuring over 30 international fellowships, nearly 200 international internships, and dozens of international moot court and writing competitions. Supersedes the (2009-2010) edition.
