found the following review helpful. I smell a ratBy ShotanEvery glowing review was made within the same 48 hour period by reviewers who only made a single review, this book.If a cursory glance of reviews can show that the reviews are frauds, I shudder to think of what an IRS professional would make of any asset protection using this advice.6 of 7 people found the following review helpful. Lots of questionable reviews hereBy DavidSimply note the glowing, sales-pitch-like 5-star reviews issued in mid-January by reviewers with only one "review" to their credit. The credibility of the author and/or his alliances is called into question right away. If he can't shill reviews in a more sophisticated manner than what we see here, how could we trust his advice on asset protection from very clever and aggressive predators?
