I continued talking about the book to the point that my husband now wants to read it. -- We discussed returning this book because the writing to too small. If we had known that the writing was this small, we would not have ordered it.0 of 0 people found the following review helpful. I highly recommend readingBy RickAn absolutely incredible book that will keep most locked into readin it....I highly recommend reading it0 of 0 people found the following review helpful. Hardcover AtlasBy David L. ZielkeThis novel is one of my favorites, though I do not agree with a lot of aspects of the philosophy espoused by the main characters. It is one of the 20th century great novels. Once you begin, you will want to keep going just to find the answer to the opening line and question, "Who is John Galt?". This edition is, in my opinion, a pretty good one, though they are "faux leather", i.e. regular clothbound.
