Do NOT TRUST this seller!By Dean DiSandroI needed this text for an upcoming exam, so I ordered it as an EXPEDITE!He promised to ship NEXT DAY to arrive within 3 days (he also called its condition "Very Good")... that was 9 days ago.Turns out, he did not even OWN what he was selling!Says he emailed me 2 days after my order (!!!) asking if excessive markings would be OK... but I never got that email (and I'm guessing he's just lying)!Now, today, he wants to negotiate with me to remove the "bad rating" if I'll take the book at "no extra charge"... then that claim morphs to "half off", then "no charge at all"... each time claiming this is what he meant all along.I provided my cell phone and he had the nerve to call me up and lie to me repeatedly, on aspect of this purchase !!!All this hassle and lying for a \$17.00 book purchase? Are you kidding me? What an outrage!NEVER EVEN CONSIDER doing business with this guy! should remove him as a seller.0 of 0 people found the following review helpful. Bar/bri Professional ResponsibilityBy A. M.This book is a must for any law student who will be taking the MultiState Professional Responsibility Exam (MPRE). The book is well written and follows the ABA Model Rules of Professional Conduct with examples. If you belong to Barbri Bar review then you will receive this book. If you are not taking Barbri's Bar Review and your state requires the MPRE then I highly recomment this book.0 of 0 people found the following review helpful.
