United Nations : Birth Registration and Armed Conflict (Insight Innocenticard) before purchasing it in order to gage whether or not it would be worth my time, and all praised Birth Registration and Armed Conflict (Insight Innocenticard):

The present publication reviews the problem of non-registration in conflict-affected countries while drawing on case studies to analyze successful or promising initiatives to ensure registration. The ultimate goal is to assist practitioners in the field in conflict and post-conflict environments to promote emerging encouraging practices in ensuring the right

of the child to birth registration and thereby to the enjoyment of many rights.
