Anything he writes is worth study. There are gems in this book but, that said, for the best introduction to Lederach, I recommend The Moral

Imagination, a classic.0 of 0 people found the following review helpful. My Country is a Divided Society!By aminu adamu belloI have no disappointment in the content of this product. However, I am anxious to digest the connection between materials here with the cultural dimension that has always seen my part of the world as 'developing' or 'underdeveloped' especially since most of the principles I am encountering are almost second nature to us.1 of 1 people found the following review helpful. excellenetBy EMI found this book to be very interesting particularly for people who are interested in how conflicts influence identity. it does not only provide theoretical analysis but also provides a framework for action in order to build peace in communities affected by internal conflict that involves identity issues.

A major work from a seminal figure in the field of conflict resolution, *Building Peace* is John Paul Lederach's definitive statement on peacebuilding. Marrying wisdom, insight, and passion, Lederach explains why we need to move beyond "traditional" diplomacy, which often emphasizes top-level leaders and short-term objectives, toward a holistic approach that stresses the multiplicity of peacemakers, long-term perspectives, and the need to create an infrastructure that empowers resources within a society and maximizes contributions from outside. Sophisticated yet pragmatic, the volume explores the dynamics of contemporary conflict and presents an integrated framework for peacebuilding in which structure, process, resources, training, and evaluation are coordinated in an attempt to transform the conflict and effect reconciliation. *Building Peace* is a substantive reworking and expansion of a work developed for the United Nations University in 1994. In addition, this volume includes a chapter by practitioner John Prendergast that applies Lederach's conceptual framework to ongoing conflicts in the Horn of Africa.

About the AuthorJohn Paul Lederach has spent 15 years providing training and supporting peacebuilding in Colombia, Somalia, The Philippines, Nicaragua, and Northern Ireland. Director of Eastern Mennonite University's Conflict Transformation Program, he has conducted numerous research projects and published extensively.
