1 of 1 people found the following review helpful. Second Home ReviewBy RaptormanThis truly is an exceptional book. It is written in easy to follow terms and is broken up such that you only read the portion(s) that relate to you. It has a lot of good tips to consider and it helps the reader get a better understanding of where they really stand with respect to purchasing a second house.The only thing that detracts from this book is the lack of having the forms pre-filled out in spreadsheets. The forms are helpful, but since they are in a rich text format, it forces the user to enter them into spreadsheets.2 of 2 people found the following review helpful. Appreciate DepreciationBy M. YeeEasy book to understand the tax advantages (esp. depreciation) of buying a second home. Recommended. Couple with "How a Second Home Can Be Your Best Investment" for strategies in buying up.2 of 3 people found the following review helpful.
