From Business Valuation Resources : BVR's Guide to Fair Value in Shareholder Dissent, Oppression and Marital Dissolution before purchasing it in order to gage whether or not it would be worth my time, and all praised BVR's Guide to Fair Value in Shareholder Dissent, Oppression and Marital Dissolution:

Virtually every state has a dissenting stockholder statute, and now most states have minority oppression statutes. In almost all of these states, the statutory standard of value for stock is fair value, and recently some states have adopted the fair value standard for marital dissolutions. Appraisal actions under both dissent and oppression statutes are on the increase, and it is a fertile field for business appraisers. BVR's updated Guide couldn't come at a more opportune time, and provides a great resource for BV appraisers and attorneys to use whenever their work involves fair value as a standard of value in dissenting stockholder actions, judicial appraisals, marital dissolutions, and more.
