Needless to say a short night. I would highly recommend it, although the reality of the story saddened my heart. But, we all need to be aware of what can happen. Thanks to Jan Rasnick for sharing her story to save someone else.0 of 0 people found the following review helpful. Great job Jan rasnicBy CustomerExcellent book a must read for those with elderly parents0 of 0 people found the following review helpful. Very sad and enlighteningBy Phyllis SmithVery sad and enlightening. The writer is a personal friend and breaks my heart what she and her dad went through. Great read.

I was not prepared for what happens to the mind in the aftermath of a loved ones passing. Death is an act that no one wants to think about, and/or talk about. What we do need to talk about is what happens to those left behind and the dramatic effect death has on the living, front and foremost the elderly. My Father was the victim of one of the worst forms of elder abuse. His abuse was calculated and planned out by people he trusted. They attacked him by getting inside his life and turning it upside down by any means possible. These people were good cons and for a short time they got family members to trust them into thinking they were really as good as they appeared to be, but eventually the truth does rise. My wish would be that by writing this book it brings awareness to just how horrific elder abuse can be.
