From Harriett Buhai Center for Family Law : California Family Law Basics (A Step by Step Guide to California Divorce, Paternity, Custody, Support, Domestic Violence and Property; With Pleadings, Procedures and Forms) before purchasing it in order to gauge whether or not it would be worth my time, and all praised California Family Law Basics (A Step by Step Guide to California Divorce, Paternity, Custody, Support, Domestic Violence and Property; With Pleadings, Procedures and Forms):

2 of 2 people found the following review helpful. Clear and useful for all family law practitioners By James V Sanchez This book is a tremendously useful and clear guide not only to the filing and format of required family law forms and motions but also provides great insight into the purpose and the best practices in preparing for hearings and

trials. One thing to watch for is that the book is written from the perspective of the Harriett Buhai center (a well deserving organization). This means that while it is tremendously useful in all scenarios, those looking for information on high-asset clients, large community property estates, or complex financial issues will have to supplement the books subject matter. The book is not how to deal with "everything" but does cover family law practice basics very well. 2 of 3 people found the following review helpful. A Very Good Resource Material By EA Lindain "I consult the California Family Law Basics every time I need a guide in preparing pleadings and answering forms. I use it almost everyday. What I like most of the Guide is how the topics are properly organized and the explanation is easy to understand. The book is useful not only to the attorneys in our office but to our paralegals and staff as well. I highly recommend this book to attorneys and paralegals that are both new and old to the practice of CA family law. The book makes it easy for new practitioners to navigate the intricacies of family law practice and updates veteran practitioners to current changes in procedures." 2 of 2 people found the following review helpful. Great Resource By Andrea Merrell Caster "This book is incredibly helpful for new practitioners and those who may not regularly practice family law. After almost ten years in practice, I still refer to it. Very comprehensive and practical, it is well organized, and much more "step by step" than CEB and Rutter Guide (also good practice guides).

California Family Law Basics is an essential approximately 1,300 page 25 chapter book with filled out forms that have been helping lawyers and paralegals for 25 years. Effective strategies and methods to avoid pitfalls and successfully resolve cases. Updated annually.
