I passed it easily after using this bookBy Patrice OwiafeIf you want to pass the baby bar handily, without any form of a review course, this book must be your first choice material. After several trials at the baby bar, I passed it easily after using this book. Other series from the Celebration Bar Review will surely be my first choice material for all my other school exams and the bar exam.4 of 4 people found the following review helpful. Where's the Audio?By ArmyOfficerThis book is suppose to give you examples of essay questions and answers. There are many questions in the book that tell you to reference the answer on 'audio'. Well no audio came with the book so I'm a little pissed that many of the questions dont show you the answer or how to arrive at the answer. If there is audio included with this purchase I didnt receive and if there isn't, why put questions in here that you dont provide the answer to!3 of 3 people found the following review helpful. don't buy this bookBy LizzieNot really worth it.There are total 78 essays, but 18 essays of them have no answers.....I feel cheated.Dont buy it.
