I used them for finals and passed and will use them for the baby bar as well. UPDATE: July 6, 2014 These books contained the exact scenarios that we were given for homework and that were on the exam. Can you imagine going over and/or studying a question (especially the essay) and then sitting down to take the exam and seeing that same scenario on the exam? It was truly exciting. I'll be honest with you, this and the essay version is the reason I got through that first year and a half and also why I passed my exam on the first attempt. The explanations in the answers helped me to understand the law, not memorize it.0 of 0 people found the following review helpful. Best MC bookBy JulieExtremely Helpful. As a 1L, I struggled with multiple choice concepts until I got this book. I went from a low of around 50% to an 90% on my next exam and had only studied for about 4 hours.

Well worth the purchase!! I feel much more confident in MC questions and will continue to review this book before each exam and before the MBE. I have mistakenly purchased several other books that were just basic outlines and weren't helpful at all. This book is by far the lifesaver for MC questions. 1 of 1 people found the following review helpful. Material = Good, Kindle version = Bad
By runningmomI purchased the Kindle version of this book and the pages are jumbled so that questions/answers are intermingled which makes an already challenging process almost impossible. The content of the book seems great, I believe there were problems migrating to the electronic format.

Multiple choice questions and answers for the subjects tested on the California First Year Exam. Topics include Torts, Contracts and Criminal Law. This is the same volume used in the Celebration Bar Review course for the CA Baby Bar Examination. 2017 Edition.
