Richard Wydick, Rex Perschbacher, Debra Bassett : California Legal Ethics, 8th (American Casebooks) (American Casebook Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised California Legal Ethics, 8th (American Casebooks) (American Casebook Series):

Buyer (Renter) bewareBy critic#32I rented this book from .com and absolutely regret it today. The book was sent in a very "used" condition...with writings and highlighting in the book. Anyway, I returned the book in the same condition that it was sent to me...and was

charged in addition to the \$70 for renting this book, an additional \$104 because allegedly "some pages were damaged." It is shady business to use my credit card without my authorization and also, unjustified to charge my full price for an old book with absolutely no proof to this ridiculous claim of "damaged pages." So textbook renters beware ...I do NOT recommend renting this book EVER...unless you are prepared to take a picture of every page to prove that it was already in that condition when you received it. I will never rent a book every again. Otherwise, the material in the book was somewhat useful...but to PR, it is more efficient to either have Barbri and do more MPRE questions.

This new edition retains the popular problem-based approach, with updated cases and materials. The new edition contains expansions to the chapters on confidentiality, candor, bias, and judicial conduct, as well as some new discussion problems.
