Larry D. Dershem : California Legal Research Handbook before purchasing it in order to gage whether or not it would be worth my time, and all praised California Legal Research Handbook:

This easy to read reference book is designed to teach attorneys, paralegals, law students, and others everything they need to know to perform competent legal research on both the state and federal level, and is geared for California and federal law practitioners. Readers will learn the techniques used by experts to zero in on case law, statutes, and

administrative law to win their cases. Both traditional book based legal research, as well as Internet based legal research are covered. A student study guide and instructor handbook are available for a small additional charge, making the book ideally suited for classroom instruction.

About the AuthorLarry D. Dershem is a practicing attorney, certified law librarian, and law teacher. He has authored 17 titles for the American Association of Law Libraries, and has been awarded the Renee D. Chapman Memorial Award for Outstanding Contributions in Technical Services Law Librarianship by the American Association of Law Libraries.
