It had many typos in the text that made me suspicious of the quality of the content. The only thing I got from this book is: Fill in a data sheet from your estate attorney before you go to the office and the book does not substitute for an attorney so do not use the sample formats. The other three books I've read have been far superior. I've read Beyond the Grave by Condon, The Complete Book of Wills, Estates Trusts by Boyle and the 60 Minute Estate Planner by Kraemer and gotten much more from them.

It's the only sure thing in life, and Harold I. Boucher's comprehensive book helps Californians prepare for it. An essential tool, *California Living Trusts and Wills* covers everything readers need to know before they see an estate-planning lawyer, including how, why and when to use one, and how to choose the best one for their needs. The best and easiest way to prepare for the inevitable, this book helps readers feel secure that their final directives will be followed. Straightforward, concise and clearly written for everyday people and professionals alike, it offers the most priceless commodity of all: peace of mind. Vital information includes: \*Overview of living trusts and wills \*Fill-in-the-blanks California Statutory Will \*Durable powers of attorney \*California Medical Association's Durable Power of Attorney for Health Care Decisions \*Explanation of your right to make decisions about medical treatment \*California Natural Death Act Declarations \*Estate-planning questionnaire \*How to choose an estate-planning attorney
