Learning Disabled Parents: A Handbook for Family Lawyers:

This handbook is for all those involved in UK care proceedings where one or both of the parents is learning disabled. The book sets out the relevant UK governmental policy and guidance in this area. It examines the statutory framework relevant to social workers involved with adult learning disability. It considers and analyzes the legal and practical arguments and issues likely to arise in learning disability cases, and it concludes by focusing on the reported UK cases where learning disability has been an important feature.
