Neat little review of all the cases, but need to hunt for what you needBy CustomerThis case brief is awesome IF you have the book it's keyed to, which I did. In that case, you have accurate and condensed briefs of every case in the book at your fingertips. The rules were clearly stated and the authors echoed much of what my professor emphasized (and subsequently tested on the exam). However, you

shouldn't expect something along the lines of Emanuels - this book isn't going to give you a capsule summary of the subject. It just purely breaks down the content of the textbook. 0 of 0 people found the following review helpful.
Helpful Test Prep By Modestkit This was a good supplement for my case book. It helped for test preparation and preparing for class during a very busy two weeks. If you anticipate a large paper or have a law review note while taking your Health Law class, get the case brief. 1 of 1 people found the following review helpful. Great summaries, Didn't even read the text for the most part. By Customer I'm using this book to study for finals right now. I used it a lot when I couldn't finish the long assigned readings. I ALWAYS knew everything that was going on in class, and understood each case very well. This book happens to be very good.
