Well thought-out suggestions on how to complete, store and who to share it with. I do wish there was a template of this so the information could be completed through data entry. Perhaps not practical for some but I worry about handwriting being difficult to read. This is necessary to complete - not an option!0 of 0 people found the following review helpful. Must have!By Jennifer LeighI bought this book several months ago and find myself adding to it and consulting it on a regular basis. Currently, I use it more for remembering passwords/accounts/etc.. but I'm proud that I'll be able to leave it for my children someday instead of

leaving them with a lot of work to do on their own. It's so easy to write things down as they come and have it all consolidated in one place, brilliant idea. Highly recommend! 1 of 1 people found the following review helpful. A Detailed Guide By Robert Service Jr Cell phones don't work in Heaven covers all the bases. This is the first comprehensive guide offered to anyone wishing to plan, prepare and control all aspects the ultimate destination. After many years of advising clients about their life insurance needs, I will now have a great new tool that provides a path through the process in great detail. Pope's book is a great example of full disclosure.

What are you waiting for? Sure, it's tough to think about the future, but we owe it to ourselves and to our loved ones to document the critical information they will need when we can no longer be with them. Cell Phones Don't Work in Heaven is a concise workbook with easy-to-use forms. You don't have to be an accountant or lawyer to capture your essential information, and the level of detail is completely up to you. The result? You and your loved ones will have a record of vital information and reflections, compiled in one place and easy to access. This record will be one of the best gifts you ever give to your family and yourself. Just do it for your peace of mind!

The minute I saw Cell Phones Don't Work in Heaven I knew I wanted to give it to my inner circle of family and friends and make it available to patients. I'm sleeping better at night knowing my wife and adult children will know what to do when I can no longer be with them. --Allen Dale Nash, MD Because of Cell Phones Don't Work in Heaven, my mother and I had an important conversation about documenting our family records and end-of-life issues just before my father suddenly passed away. It was a difficult time, but it was so much easier because we had already begun talking to one another and planning for her future without him. --Denise Jennings, Fine Artist and Arts Education Consultant I bought Cell Phones Don't Work in Heaven to give to clients and family members, because I've seen firsthand the painful mess that people leave behind after they are gone when they don't make a record of the information their loved ones need. I want to say to everyone what I tell my clients: Just do it! --Sharon McKelvey, Accountant About the Author Mark C. Pope is a businessman, husband, and father whose own interest in documenting his family's assets began with a potentially fatal accident. His career includes a stint as an officer in the U.S. Navy and serving as president of a publicly held company. Today he is the owner and president of Graphic Solutions, Inc., a graphic communications company. He serves on numerous nonprofit boards and lives in Atlanta, Georgia, with his family.
