book is amazing and very educational. It helped me understand the system much better and the way it is written is very clear. I think that a lot of people do not understand clearly what is all going on in our system or they just brush it off. But everyone needs to know. I am so glad that there is a book like this out there and I hope there will be another one soon.

Children deserve our love, support and most of all our protection. This book is roadmap for anyone that wants to help keep children safe. This guide suggests practice standards to help judges, parents' attorneys, children's attorneys, CFS workers, GALs and family members ask the questions that need to be asked in every case. Topics covered in the book include: What is the System Terms and Definitions The Need for a Balanced and Neutral System
