Marsha Vaughn : CHILD SUPPORT DOLLAR\$ and SENSE for NCPs: Practical advice, guidance, resources and much more for Non-Custodial Parents juggling child support issues. before purchasing it in order to gage whether or not it would be worth my time, and all praised CHILD SUPPORT DOLLAR\$ and SENSE for NCPs:

Practical advice, guidance, resources and much more for Non-Custodial Parents juggling child support issues.:

3 of 3 people found the following review helpful. Very Informative
By K One
This book is definitely a great resource. It will open up your eyes to the less talked about side of child support cases. Not all fathers who pay child support are dead beats. The stories alone give the reader a new understanding of why it is important to take this matter very seriously. I would recommend this book to anyone who is in seek of information regarding the non-custodial parents rights. Informative, shocking, and relevant this book is truly worth every penny.
4 of 4 people found the following review helpful. Truly Remarkable Resource!!
By Customer
This book provides an incredible amount of information and guidance for non-custodial parents, but can be really useful to just about anyone who deals with this issue professionally or personally. From the clear translation of the myriad acronyms associated with the laws and other aspects of managing child support, to the sage advice on how to keep things in order, to the incredible stories of real people who have overcome incredible obstacles in their own cases, this is a remarkable resource. There is even a glossary and directory in the back! Marty Vaughn couldn't have created a more timely or useful resource than this one. I've never read a more accesible book on such a complicated topic. When you consider the cost of paying (or worse - overpaying) child support, this is a small price to pay for such a comprehensive resource. No NCP should be without a copy.

Child Support Dollars and \$ense for NCPs is an absolute must read for everyone dealing with child support issues today. Non-Custodial Parents facing challenges in handling their obligations will find this resource easy to read and the tools and guidance it offers exceptionally easy to apply to their own situations. Those NCPs who would like to avoid common pitfalls will find tools for managing all aspects of their cases from initial assignment of obligation to continuing and finalizing their payments of support for adult children. Everyone - including custodial parents and legal professionals - will come away with invaluable insight into how best to deal with the ins and outs of this huge and increasingly complex system. This book offers example after example of real life NCPs who have overcome enormous obstacles in the process of paying their obligations and will teach the reader how to do the same. Find out why the child support enforcement administration had to: dismiss a \$56,000 arrearage of a so-called deadbeat reduce the arrears of some others and in many cases. . . . Reimburse NCPs support that they had over paid. There is a desperate need for everyone to have a better understanding of the child support enforcement system and the people who manage it. Too often those in the greatest need of guidance and support in these matters relinquish control and power to others to the detriment of themselves and - more importantly - their children. Readers will be empowered to make the best of often less than perfect circumstances and to make the system work for them and their families' best interests.

About the Author
Marty Vaughn is an extraordinarily talented Intermediary Research Agent, prolific author and passionate educator. She has over 15 years experience troubleshooting child support cases for Non-Custodial Parents (NCPs) with problems involving; improper tax refund interceptions, incorrect amounts of arrearages, overpayment of obligation and the like. Attorneys and clients agree that she treats every case as if it were her own - with genuine concern for all of the parties involved, especially the children - and she is committed to the cause of liberating NCPs from the unnecessary burdens of mishandled child support cases. Marty offers seminars and workshops to Fathers' and NCP organizations designed to train them on everything from case monitoring and payment tracking to addressing administrative issues. She has created this book to share what she knows, in hopes that those affected by these issues will come to know what her years of remarkable success in this field have taught her. Simply put, "information is the key. Non-Custodial parents who are armed with information can avoid the child support case nightmares that arise as a result of negligence, oversight and misinformation."
