**Mary L. Boland : Child Support: Your Legal Guide to Collecting, Enforcing, or Terminating the Court's Order (Sphinx Legal)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Child Support: Your Legal Guide to Collecting, Enforcing, or Terminating the Court's Order (Sphinx Legal):

The laws of all states provide that every parent has a legal duty to support his or her child. This is true whether the parents are married or not, and whether the child lives with them or not. However, getting an order for child support and having that order enforced are totally different issues-ask any parent who has returned to court, repeatedly, in order to be able to take care of his or her child. This book explains in detail what the child support order is and what it is not. It discusses legal measures that can be taken to collect child support, gives clear direction for anyone interested in changing the child support order and finally addresses the termination of support. Various problems like kidnapping, abuse, visitation problems and a parent living in another state are also discussed. Appendices identify state-by-state child support laws, child enforcement agencies and additional resources for further assistance in pursuing child support.

About the Author Mary Boland received her law degree from John Marshall Law School. She is an attorney who currently practices in Illinois, serves as a consultant to the United States Department of Justice, Office for Victims of Crime, and is a member of the Victim's Rights Committee of the American Bar Association.
