**Jianfu Chen : Chinese Law: Context and Transformation** before purchasing it in order to gage whether or not it would be worth my time, and all praised Chinese Law: Context and Transformation:

Like the previous edition in 2008, this book examines the historical and politico-economic context in which Chinese law has developed and transformed, focusing on the underlying factors and justifications for the changes. It attempts to

sketch the main trends in legal modernisation in China, offering an outline of the principal features of contemporary Chinese law and a clearer understanding of its nature from a developmental perspective. It provides comprehensive coverage of topics: legal culture and modern law reform, constitutional law, legal institutions, law-making, administrative law, criminal law, criminal procedure law, civil law, property, family law, contracts, torts, law on business entities, securities, bankruptcy, intellectual property, law on foreign investment and trade, Chinese investment overseas, dispute settlement and implementation of law. Fully revised, updated and considerably expanded, this edition of *Chinese Law: Context and Transformation* is a valuable and important resource for researchers, policy-makers and teachers alike.

About the Author Jianfu Chen, LLM (Hon I), PhD (Law, 1994), the University of Sydney, is Professor of Law at La Trobe University School of Law. He has published extensively on Chinese law, international trade law, and legal globalisation.
