**Avrom Sherr : Client Care for Lawyers (Legal Skills)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Client Care for Lawyers (Legal Skills):

The second edition of this acclaimed text provides a clear step-by-step guide to interviewing techniques and consultation between client and lawyer. It is an illuminating and practical guide for the student and an invaluable

refresher for the practitioner.\* Practical case studies highlight specific interview problems, such as dealing with children and the mentally disturbed\* Checklists enable self-evaluation and reinforce key principles of effective interviewing techniqueThis is a hugely practical book including case studies to highlight specific interview problems and self-evaluation checklists. Completely revised and updated, it takes account of profound recent changes in the teaching of legal skills.
