**Kitty Hailey : Code of Professional Conduct, Second Edition** before purchasing it in order to gage whether or not it would be worth my time, and all praised Code of Professional Conduct, Second Edition:

Code of Professional Conduct, Second Edition has been prepared to advance the reputation of the profession of the private investigator; to educate investigators, and those who hire them, on the ethics, conduct, and services of

practitioners; and to insure that excellent standards of service and professionalism are upheld at all times. While a majority of the professional investigator associations already invoke a code of ethics, the codes vary greatly, can lack important content, and change over time. Author and private investigator Kitty Hailey has compiled, compared and contrasted many of these codes and has created an all-encompassing platform that has established a new level of ethics and service in the profession. In this new edition she has revised and updated the code as needs have changed in the investigative community.

About the AuthorKitty Hailey, CLI, is an experienced investigator with a respect for the profession. She has worked all facets of the field. Her private investigative career concentrated on legal investigation in support of litigation in both civil and criminal cases. Today, she is an investigator with the Federal Public Defender, Capital Habeas Unit. Ms. Hailey is a frequent writer and contributor to the journals and magazines of state and national investigative associations. She is the author of *The Code*, as well as an instructional volume entitled, *The Professional Investigator*. Additionally, she has contributed to the following textbooks: *Advanced Forensic Civil Investigations*, *Advanced Forensic Criminal Defense Investigations*, and *Corporate Investigations-Volumes I and II*. Ms. Hailey was the 2004 Investigator of the Year of the New Jersey Licensed Private Investigators Association. She is also the recipient of the 2001 Julius "Buddy" Bombet Lifetime Achievement Award. She holds five industry-related editor/publisher awards for her instructional writing achievements.
