By Anna Rodriguez I want to thank you very much for your wonderful book - I have been fighting my deadbeat ex-husband for many years to collect support for my two children, and your book gave me the ideas and the inspiration muster the courage to continue the struggle. I'm happy to say that I have now successfully collected 7 years of back-support! What can I say? This book has been a life saver for me! Keep up the good work and may God bless you!

By A Customer This is a frivolous, trivial, crummy book, devoid of substantive information. The scant data available is so generic as to be meaningless, and the tone is patronizing and dismissive. The truly useful book I found is Simone Spence's "Deadbeats: What Responsible Parents Need To Know About Collecting Child Support," which is superb.

By Natasha Nicholson This book was amazing and I got results. I have two children with two support orders and an ex who had a habit of quitting jobs to avoid paying. Not anymore. This book game me the rules and tips on getting my two children what they were entitled to--without my staying in court and taking lots of time off work.
