**John A. Zervopoulos : Confronting Mental Health Evidence: A Practical Guide to Reliability and Experts in Family Law** before purchasing it in order to gage whether or not it would be worth my time, and all praised Confronting Mental Health Evidence: A Practical Guide to Reliability and Experts in Family Law:

3 of 3 people found the following review helpful. Excellent guide for lawyers and mental health professionalsBy CustomerThis book provides a structure for legal and mental health professionals to analyze the scientific reliability

and validity of expert testimony and reports in family law. It is concise and clearly written. Lawyers working in this area will wish to read it to help direct their cross examinations of experts and experts will want to review this book to improve their reports.

How do you know what you say you know? That's the key question family law professionals must ask when evaluating the reports and testimony of mental health professionals, their methods, and the materials that support their conclusions and expert opinions. This book offers a case-based model to empower lawyers in managing difficult psychology-related issues in their cases and hold mental health experts accountable in court.
