Irina Zlatescu : Constitutional Law in Romania before purchasing it in order to gage whether or not it would be worth my time, and all praised Constitutional Law in Romania:

Derived from the renowned multi-volume International Encyclopaedia of Laws, this very useful analysis of constitutional law in Romania provides essential information on the country's sources of constitutional law, its form of

government, and its administrative structure. Lawyers who handle transnational matters will appreciate the clarifications of particular terminology and its application. Throughout the book, the treatment emphasizes the specific points at which constitutional law affects the interpretation of legal rules and procedure. Thorough coverage by a local expert fully describes the political system, the historical background, the role of treaties, legislation, jurisprudence, and administrative regulations. The discussion of the form and structure of government outlines its legal status, the jurisdiction and workings of the central state organs, the subdivisions of the state, its decentralized authorities, and concepts of citizenship. Special issues include the legal position of aliens, foreign relations, taxing and spending powers, emergency laws, the power of the military, and the constitutional relationship between church and state. Details are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp their meaning and significance. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable time-saving tool for both practising and academic jurists. Lawyers representing parties with interests in Romania will welcome this guide, and academics and researchers will appreciate its value in the study of comparative constitutional law.

About the Author Professor at the Law School of the Universities of Leuven, Belgium and Tilburg, The Netherlands,
