Good product to keep it simple By Matt W This subject is far too broad to outline or review without some type of quick reference to keep it in perspective. Highly suggest this study tool to use as a quick black-letter reminder. While it is not comprehensive (obviously because a treatise is 1200pages), this guide gives you the basic rule and exceptions. 0 of 0 people found the following review helpful. Wouldn't be without it By DONALD M. O BRIEN So very comprehensive, ans a fantastic tool for study and quick reference. It is a fantastic compliment to study guides and very helpful for exam reviews, portable and so important that I found the entire collection of legal reference charts to purchase for my course work. 0 of 0 people found the following review helpful.
