**Susan N. Gary, Jerome Borison, Naomi R. Cahn, Paula A. Monopoli : Contemporary Approaches To Trusts Estates Law (Aspen Coursebook)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Contemporary Approaches To Trusts Estates Law (Aspen Coursebook):

0 of 0 people found the following review helpful. Five StarsBy Deltimgreat course and reference book0 of 0 people found the following review helpful. Pretty much what you would expect from this series of ...By scicdadInformation, cases, example scenarios provide a complete and fairly thorough explanation of the subject matter. Pretty much what

you would expect from this series of law books. Keep in mind, however, that the law changes often enough to warrant getting the most recently published version. 0 of 0 people found the following review helpful. Helpful book By G.M. As far as casebooks go, this one is very helpful for understanding the legal concepts. It may help that I am taking the class from one of the authors, but I really appreciate how the problems in the book make the concepts presented more clear.

Contemporary Approaches to Trusts and Estates uses cases and statutory materials along with exercises and problems to integrate legal analysis and practice skills. This innovative casebook: Proceeds chronologically, covering lifetime planning issues before wills. Uses extensive textual explanations to present the law and its many nuances. Consistent with the call in the Carnegie Report for schools to add more practice skills to the curriculum, includes exercises in document drafting, role-playing, and letter writing to clients. Reproduces statutory materials and the Restatement, so that no separate supplement is required. Explores the ethical obligations of estate planning lawyers using the MRPC and the ACTEC Commentaries. Presents contemporary cases, such as *Feinberg*, *Kuralt*, and *Schiavo*, which reflect the development of the law into the 21st century. Includes fact-based problems, requiring students to explore cases, the UPC, the UTC, and other statutes, as well as the MRPC, in depth.
