Amy Hilsman Kastely : Contracting Law before purchasing it in order to gage whether or not it would be worth my time, and all praised Contracting Law:

2 of 2 people found the following review helpful. Dig and you'll find itBy MommyloveRather than illustrating the law as it progresses case by case, this book haphazardly shuffles cases with excerpts from fiction books I read in high school, pop pop songs, and poetry. I would have preferred that the authors keep from trying to make the first year of law school a unique reading experience and just get to the point. I find this book unhelpful and frankly, I find it a waste of time. I would have rather been assigned a "University Casebook Series" book that at least might have some chance of being more straightforward.0 of 0 people found the following review helpful. 0 StarsBy M. JaimeFull of feminis ideology and positivist legal thinking. This book will suck the life out of you. I was interested in contract law before using this book. It looks huge and impressive but is really empty on the inside. Many law case books try to be neutral, but not this one.

Book by Kastely, Amy Hilsman
