Alfred Yen, Joseph Liu : Copyright Law: Essential Cases and Materials, 2nd Edition (American Casebook)
before purchasing it in order to gage whether or not it would be worth my time, and all praised Copyright Law:
Essential Cases and Materials, 2nd Edition (American Casebook):

This casebook emphasizes the essential cases and materials at the heart of copyright law. The result is a streamlined and well-organized casebook of manageable length that keeps the central themes of copyright front and center. It also provides access to a companion Web site containing an extensive library of additional modules, topics, edited cases,

notes, problems, and audio-visual materials. Together these materials, along with a companion teacher's manual, allow teachers to easily customize the copyright law course to suit their specific goals. The authors have written extensively about copyright, the arts, and the impact of new technology.
